Ameer Subhan Hussain

Nationality: Pakistani | **Email address:** ameersubhan568@njtech.edu.cn | **LinkedIn:** Ameer Subhan Hussain | **Github :** https://github.com/Ameersubhan1 | **portfolio:** https://ameersubhan1.github.io/Portfolio/

ABOUT ME

I am currently studying at Nanjing University of Technology, China, with an interest in software development, artificial intelligence, and data technologies. Through my academic studies and personal projects, I have gained experience in programming, web development, and database management. I have worked on projects such as a food delivery application, a C++ compiler, and a furniture-selling website. I enjoy learning new technologies, solving technical problems, and applying what I learn to practical projects. I am looking to pursue a Master's degree to strengthen my technical knowledge, gain research experience, and further develop my skills in computer science.

EDUCATION AND TRAINING

09/09/2021 – 06/06/2023 Karachi, Pakistan
FSC(PRE-ENG) D.J. Sindh Government Science College

Field of study Engineering, manufacturing and construction

07/09/2023 – CURRENT Nanjing, China
BACHELORS IN COMPUTER SCIENCE Nanjing University of Technology

Field of study Information and Communication Technologies (ICTs) not further defined , Database and network design and administration , Information and communication technologies not elsewhere classified , Software and applications development and analysis , Inter-disciplinary programmes and qualifications involving Information and Communication Technologies (ICTs)

SKILLS

Java (computer programming) | Programming: Pyton, C++, Java | CSS & HTML | WEB: Web Designer, Web Developer | database | MySQL | Databases (MongoDB MySql PostgresSql) | Git/Github, Docker, Gitlab | Microsoft Office: Word, Excel, Powerpoint, Outlook, OneNote | React.js, Node.js, Bootstrap, HTML, CSS | Web Technologies: HTML5, CSS3 | COMPILER DESIGN | Manuscript editing | Wireshark

LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	A2	C1	B2	B2	B1
CHINESE	C1	B2	C1	C1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

15/05/2026 – 04/06/2026
Quick bite Application

I made a food order and delivery mobile application which name is quick bite in which i use html, css, java, and for backhend i use php and i used firebass as a database.

C++ Compiler Design Project

Developed a compiler-related academic project to explore the fundamentals of compiler design and programming language processing. Worked on lexical and syntax analysis concepts to understand how source code is processed, applying programming and problem-solving skills while gaining practical knowledge of programming language grammar and compiler design principles.
Technologies: C++ | Compiler Design | Lexical Analysis | Syntax Analysis

iStudio – Furniture Selling & Design Website

WriteiStudio is a furniture selling and design website developed using PHP for backend development and MySQL for database management. The website is designed to showcase furniture products and designs through a user-friendly interface, making it easier for customers to explore available furniture options. The project demonstrates practical skills in PHP development, MySQL database integration, dynamic website development, and web application design.

Nanjing Tech University, 07/04/2026
Volunteering Activity

serving as a volunteer in the 2026 International Student Spring Sport Meet.

PUBLICATIONS

2025
Impact of Cooling Oil on Partial Discharge and Insulation Reliability in Inverter-Fed EV Motors

Co-authored a research paper investigating the impact of cooling oil on partial discharge and insulation reliability in electric vehicle motors, highlighting its potential to improve electrical performance and insulation lifespan.
